

XM Radio is a wonderful thing. I purchased the XM system based on the programming it has to offer. I also pay the monthly service fee for the programming. Now with the instant weather and traffic, XM makes my trip planning and event planning that much easier. I as well as millions of other people have the XM system for the same reason. There are a lot of bigger, more important issues going on in this country today. Why not just leave XM alone and let them keep bringing us the same great quality service they have been. It's our choice to pay for the services they offer. I am a completely satisfied customer and I stand behind XM Satellite 100%. I respectfully ask that the FCC reject the NAB's petition 04-160 to silence XM satellite Radio
